

# IROC-Z Camaros

## Iroc features

*Iroc-z camaros are not very common.* they were only made from 1985-1990. Chevy stopped making them because they didnt want to renew their contract with IROC (International Race of Champions). **"The camaros a top selling car,"** said salesman Joe.

The iroc had the car and ground effects the same color. It had 16 inch iroc rims on it. Some of them had t-tops on them. Also, the iroc camaro had tighter coil springs and stuff. The iroc was the most successful camaro of its generation.
